micuna
since 1973

Micuna cares for your baby's sleep

We offer safe and environmentally friendly products, so you can create a space for your baby that is full of love.

We are a Spanish family business that is dedicated to designing and creating bedrooms, high chairs and furniture for the newest additions to your family for over 50 years.

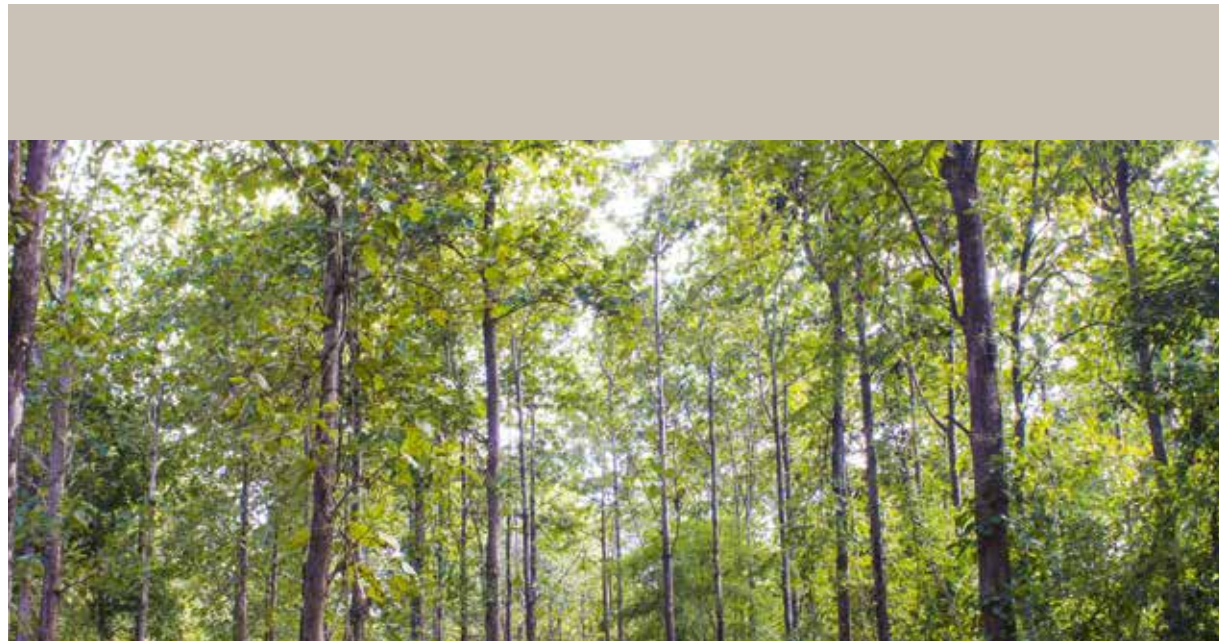

We are located next to the Albufera Natural Park in Valencia, and from here, our products have crossed borders into

more than 35 countries thanks to their design and high quality.

We dream of making the planet better for the future, so all our products are made with wood from sustainable forests, finished with water-based paint with antibacterial protection. Evolutionary, multifunctional and environmentally friendly.

Quality, safe, natural and evolutionary designs that care for your baby and the planet

micuna.com

About our products...

Micuna manufactures all its products with wood from sustainable forests and uses water based, non-toxic paint free of harmful substances.

All our products are designed and produced entirely in our factory in Valencia, Spain, following ECO-DESIGN guidelines.

Paints and varnishes are water based

Wood sourced from sustainable forests

100% manufactured and designed in Spain

Responsible forest management. Sustainable forestry and good forest practices.

Safety and regulations

At **Micuna** we always look after the safety and wellbeing of your baby, updating all our products to **current regulations** and carrying out exhaustive quality controls to ensure that they are complied with.

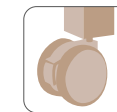

All our products are manufactured with the best materials and with finishes suitable for little ones, also ensuring that they are strong and durable over time.

We know that the first months are the most important, so we have developed our own **co-sleeping system** for our cradles, endorsed by the latest regulations published in 2020.

To guarantee the **safety** of children, Micuna includes locking systems on both our movable sides and our wheels.

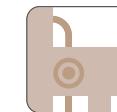

Rounded edges

4 wheels: at least 2 of them have a brake

Non-toxic paints

Safety locks on cots and babybaths

CRADLES: UNE-EN 1130:2020.

CO-SLEEPING CRADLES: UNE-EN 1130:2020.

COTS: UNE EN 716-1:2018 + AC:2019

HIGHCHAIRS: UNE-EN 14988:2018.

Cradle Mattress

For You & Me Plus and Lulú

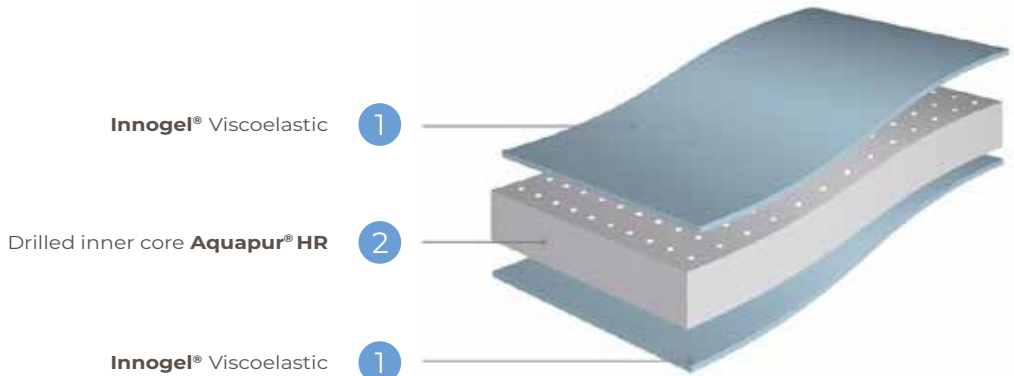

Memory foam mattress CH-1974 for cradle 80 x 50 cm

This mattress has a HR Aquapur® core, which thanks to its open cells facilitates the circulation of air inside the mattress, making it very breathable, and from a layer of memory foam Innogel® to each side, which adapts to the baby's body, relieving pressures.

Contains a high number of high-density gel particles that delay heat absorption, creating an environment of optimal rest for the baby.

micuna

Baby Nest

Breastfeeding pillow

During the breast and bottle feeding period, it helps the Mom to place their baby in a comfortable position. In addition, it avoids annoying and uncomfortable postures relieving back and arm pain, it helps to transmit peace of mind and calm to the baby

Hammock / Co-sleeping

It is perfect for co-sleeping with parents and allows for maximum calm and security while sleeping. When the baby grows and begins to sit, it can also be used as a hammock

Baby Nest

In addition, Baby Nest is a cot reducer for the first months of the baby life when feeling safe and protected is vital

BABY NEST TX-1869

Outside Material: 100%CO

Inside Material: "Feather Touch" wadding 100% Polyester

Features: Multi-use, pregnancy and breast-feeding pillow and nest effect for the baby / Removable and washable

Pregnancy pillow

When sleeping on the left side, it avoids the pressure of body weight on the vena cava which in turn, aids the pumping the blood to the placenta and provides more oxygen and nutrients to the unborn infant

The interior is made of a comfortable and moulding material which has a feather-like texture, allowing to adapt to any posture. It is breathable and thanks to its zipper, can be easily used in all positions

Neck and back support

The back support helps to relax the abdomen

Support for the feet. Avoids swelling in the feet

**Breatheable mattresses,
compatible with Micuna Relax System®**

In Micuna we investigate and analyze the global sleep recommendations of the baby and apply them to our products, guaranteeing the rest and safety. All mattresses have anti-mite treatment.

Made in Spain. High thermosensitive memory foam material technology. Molds to the body under the influence of body temperature. Relieves pressure on risk areas (shoulders, hips, and heels).

Anti-allergic and breathable product.

Breatheable Cot Mattress

This mattress is recommended for the Relax system bed base. The tilt improves breathing, reduces the pressure exerted by the head on the mattress, reducing possibility of positional plagiocephaly, favoring digestion, and reducing regurgitation. This system avoids dangerous situations such as the mask effect. The bed base semi incorporated reduces CO2 rein halation.

CH-1740 R&R basic (117x57x10cm)
CH-1741 R&R basic (137x67x10cm)

- 1 **Detail of the interior**
PAD core, high density polyurethane
- 2 **25D articulated core**
- 3 **Safe & Clean fabric**
- 4 **STRECH fabric.** Upper face of mattress formed by technical fabric that allows 60% perspiration, preventing moisture condensation.
- 5 **Rollover and Semi Roller**

Pillows

CH-570 (60 cm Cot)

CH-1097 (70 cm Cot)

Non articulated Cot Mattress

Memory foam mattress

This memory foam mattress has a core composed of HR Aquapur®, which due to its open cells facilitates the circulation of air inside the mattress, making it very breathable, and a layer of memory foam Innogel® on each side, which adapts to the baby's body, relieving pressures. Contains a high number of high-density gel particles that delay heat absorption, creating an optimal resting environment for the baby.

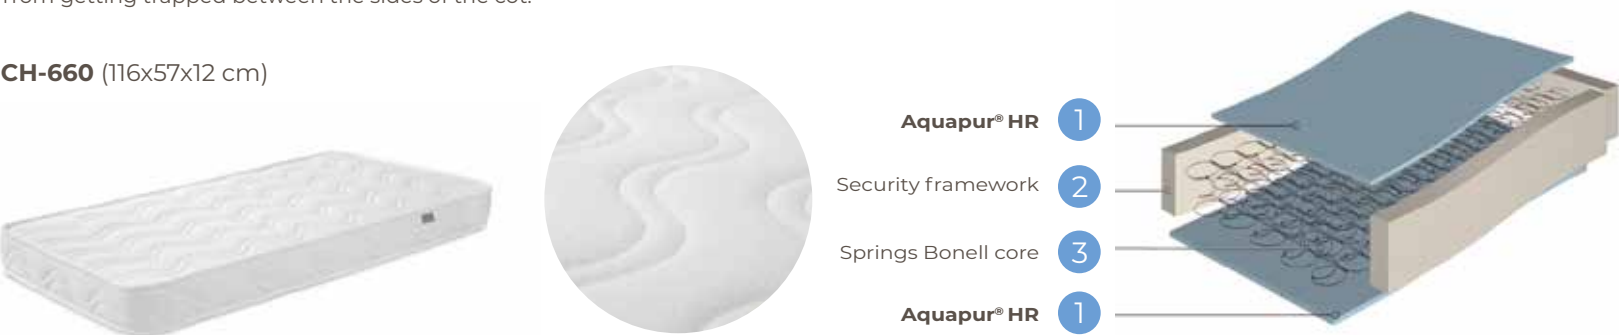

CH-1293 (116x57x12 cm)
CH-1294 (137x67x12cm)

Spring mattress

This mattress stands out for being highly breathable. Its Bonell spring core allows air circulation, avoiding the accumulation of CO2 pockets. It is perfect for babies who tend to sweat at bedtime or live in very humid areas. In addition, it has a safety frame that will keep the baby in the center of the mattress and prevents the baby from getting trapped between the sides of the cot.

CH-660 (116x57x12 cm)

Foam mattress

The foam mattress has an HR Aquapur® core, which has thousands of micro-pores that favor the circulation of air inside the mattress. Guaranteeing an extraordinary climatic regulation, a unique comfort and avoiding the accumulation of moisture.

CH-620 (116x57x10 cm)

Cots Kit

Co-sleeping

Be2IN Kit

Sleep with your baby

The Co-sleeping Kit provides functionality to our cots, allowing you to sleep peacefully, close to your baby whenever you want. In addition, the kit includes a nice photo bag with a silhouette of a stork carrying a baby, so that you can customize it with a family photo, or with whatever you want!

Cots Kit
Relax Cots
 Relax System

**Discover all the benefits
 of the Relax System**

The inclination improves breathing, reduces the pressure exerted by the head on the mattress, reduces the possibility of positional plagiocephaly, and neips with digestion to reduce regurgitation.

This system provides the baby with a safer position: sleeping on their back, avoid dangerous situations like mask effect and semi incorporated position, reduces CO2 rebreathing.

Complement with articulated mattress for two inclinations: 7° and 10°(P. 111)

INCLINABLE MATTRESS BASE
CP-1775 (120X60) / CP-1803
 (140X70) **RELAX SYSTEM KIT**
Material: Beech / MDF
Colour: Unique
No suitable: Twin Kit

- O2 air
- Higher CO2 concentration

FACE UP position
 This position reduces sudden infant death syndrome. Also reduces CO2 rebreathing.

RELAX SYSTEM position
 To reduce rebreathing of CO2, babies should be placed at a reclined angle.

X FACE DOWN position
 WHO recommends a face up position for babies to ensure safe and secure sleeping.

X On a SIDE position
 Sleeping on your back reduces the mask effect, whereby a soft or padded material can adapt to the face of Baby preventing your breathing.

We investigate **World Recommendations** about baby's sleep, applying them to our products and guaranteeing rest and safety.

Check the '**Other accessories**' section to see if your model is compatible with this accompaniment.

Baby Hop

Psychomotor development and cognitive of the baby

The first few months of life are important in your baby's life. Your baby becomes curious about everything around them and wants to explore their environment. With the Micuna Baby-Hop, your baby can indulge their curiosity and stimulate cognitive abilities, thanks to its hanging elements with different textures.

This product has been developed in collaboration with the occupational centre "Per Ells" in Turís (Valencia), a non-profit association that works for the integration of people with functional diversity

Material: Beech / Lacquered MDF
Colours: White / White - Natural wax
Features: Montessori pedagogy mirror. Includes wall anchor, 2 Mounting positions, Horizontal and vertical. Adjustable bar in 3 positions at 24,5cm / 31,5cm / 38,5 cm. Security mirror.

COLOURS  

💡 Better determination to get on and off the bed for the little ones

Cot Barrier

Cot barrier from the Micussori line can be attached to any 120x60cm Micuna cots marked with this symbol. The rounded edges avoid possible scratches and is the perfect complement when baby learns to climb in and out of the cot.

Supplement it with this reading lamp, power and intensity touch control. (P. 121)

COLOUR 

COT BARRIER MONT-1863
Measurements: Height 34 cm x Width 76,5 cm x Depth 1,2 cm
Material: Lacquered MDF
Colour: White.
Features: Montessori cot barrier for 120 x 60 cm cots and for the Tipi House.
Bed version: Put in the lowest height of the bed base and without wheels

Trotta

Trotta is also a seat, placing the upper step in its inclined position.

Learning Tower

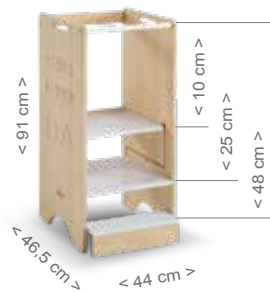

In the first position, Trotta is a three rung ladder, perfect for small adventurers. The bottom step can be folded inwards, when the child does not need it and to save space.

The second position is designed to accompany the child as they grow. Thanks to the new Trotta guide system, you can change its functionality with very simple and intuitive movements, and without using any other tools. With a simple slide, the upper step becomes a hidden step, reducing the height.

The sides contain a fun game for the child to discover letters, numbers and basic geometric shapes, following them with your tracking ball. This system will allow children to take the first steps of writing and drawing at their own learning pace

TROTTA MONT-1872
Measurements: Height 91 cm x Width 44 cm x Depth 46,5 cm
Material: Lacquered MDF - Pine
Colours: Natural wax - White
Features: Developmental learning tower / Sliding system / Seat changeable into shelf / Developmental in height / Folding steps / Includes pointer / Playing area

Encourages the autonomy of the little ones to rise their parents' height and help them with different home tasks

The Micussori learning tower has minimalist lines and Nordic colours. Following the Montessori philosophy, this tower will help children to develop autonomy and to experiment in every room in the house, such as the Kitchen and bathroom.

LEARNING TOWER MONT-1876
Measurements: Height 91 cm x Width 59 cm x Depth 53 cm
Material: Lacquered MDF - Beech
Colour: Natural wax - White.
Features: Learning tower, includes access step.

OVO ONE

OVO TIMBER

OVO CITY

OVO, design and avant-garde in your kitchen

It is our most international high chair, the favorite of celebrities, awarded and acclaimed worldwide by specialized magazines and consumers

Don't you want to have your own OVO?

Choose your favorite among the three available versions: OVO ONE, with a Nordic design combined in natural and white beech wood, OVO CITY, a modern and sophisticated highchair in mahogany and anthracite gray beech wood, and OVO TIMBER with an urban design that combines the Colour Natural wax with anthracite gray.

Flor

The **Aquaclean** upholstery of Micuna rocking chairs protects against viruses and bacteria, effectively reducing their activity and limiting their penetration into the fabric.
In addition, this fabric is a great help against allergies caused by dust mites.

The White and Grey synthetic leather upholstery is **Aqualine** which is easy to wash and stain repellent.
