micuna

Micuna cares for your baby's sleep

We offer safe and environmentally friendly products, so you can create a space for your baby that is full of love.

As a Spanish family business, for more than 50 years we've devoted our lives to the design and creation of bedrooms, high chairs and furniture for the youngest arrivals in your home.

We are located next to the Albufera Natural Park in Valencia, and from here, our products have crossed borders into more than 35 countries, thanks to their design and high quality.

We dream of making the planet better for the future, so all our products are made with wood from sustainable forests, finished with water-based paint and are evolutionary, multifunctional and environmentally friendly.

Quality, safety and natural, evolving designs that care for your baby and the planet

About our products....

At Micuna, the wood for our products is selected from sustainable forests, with water-based finishes, free of toxins and harmful substances.

Our products are designed and manufactured at our facilities in Valencia (Spain) under the premises of ECO-DESIGN.

Safety and regulations

At **Micuna**, we always look after the safety and well-being of your baby, updating all our products to **current regulations** and carrying out exhaustive quality controls to ensure that they are complied with.

All our products are manufactured using the best, strongest and most durable materials, with finishes that are suitable for younger children.
We know that the first few months are the

most important, so we have developed our own co-sleeping system for our cradles, endorsed by the latest regulations published in 2022.

To guarantee the safety of children, Micuna includes locking systems on both our movable side panels and our wheels.

The Micuna Lulú co-sleeping cradle is the most versatile and evolving on the market

The Lulú co-sleeping cradle has 8 different functions to assist with the development and growth of your baby through its various stages:

Includes complementary mattress, bed anchoring system, and is adjustable to 9 different heights.

1 **Cradle**

2 **Co-sleeping**

5 **Bench.** Sit and play all in one.
The lower part can be used for storage.

6 **Desk.** Your baby's first schoolmate.

3 **Play seat.** Your baby will have its whole world at its fingertips.

**4** **Play table.** Baby's first table to play and paint.

7 **Sofa.** His/her favourite reading space.

8 **Toy box.** It's time to get organised!

Cradle Mattresses

This mattress has a core of HR Aquapur®, which, thanks to its open cells, facilitates air circulation inside the mattress, making it very breathable, and from a layer of Innogel® memory foam on each side, which adapts to the baby's body, relieving pressures.

Contains a high number of high-density gel particles that delay heat absorption, creating an environment of optimal rest for the baby.

Mountain

Meet our most natural cot

The Mountain cot retains the original feel of beech wood, preserving its light, natural tone.

Its light and refined design makes it perfect for any type of room.
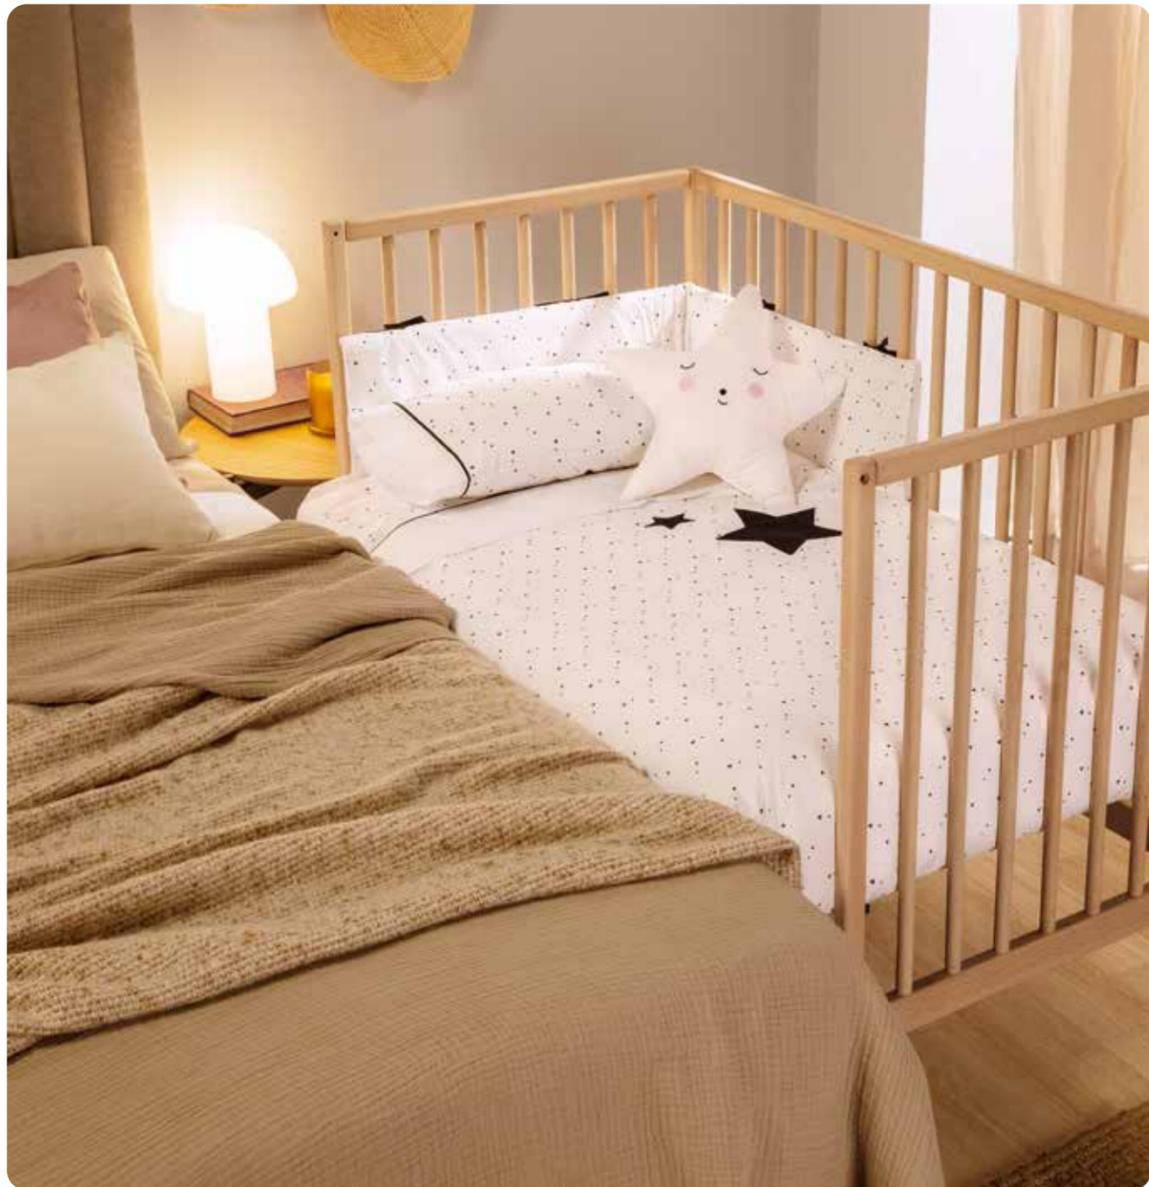

Do you prefer a fixed cot?

You can choose to mount it without wheels and thanks to its height, it does not need movable side panel for access to the baby inside.

Convertible into a co-sleeping with our CP-2007 or CP-2008 accessory.

R&R by micuna
Articulated core mattresses
compatible with Micuna Relax System®

At Micuna, we research and analyse the **global recommendations for babies' sleep** and apply them to our products, guaranteeing rest and safety.

All the mattresses have anti-mite treatment. Made in Spain.

High-tech thermosensitive memory foam material. Moulds to the shape of the body under the influence of body temperature. Relieves pressure in risk areas (shoulders, hips and heels). Hypo-allergenic, breathable product.

Articulated core mattress

The inclination improves breathing, reduces the pressure of the head on the mattress, reduces the possibility of positional plagiocephaly, promotes digestion and reduces regurgitation. This system avoids dangerous situations such as the mask effect and reduces CO2 re-breathing.

CH-1740 R&R basic (117x57x10cm)
CH-1741 R&R basic (137x67x10cm)

1. **Interior detail**
   PAD core, high density polyurethane.

2. **Articulated core 25D**

3. **Safe&Clean fabric**

4. **STRECH fabric.** The upper side of the mattress is made of technical fabric that allows 60% breathability, preventing moisture from condensing.

5. **Anti-tipper and Semi-roller** (Only the semi-roller has removable covers)

Pillows

CH-570 (60 cm cot)

CH-1097 (70 cm cot)

R&R by micuna
Non-articulated mattresses

Memory Foam Mattress

This memory foam mattress has a core composed of HR Aquapur®, which due to its open cells facilitates the circulation of air inside the mattress, making it very breathable, and a layer of visco Innogel® on each side, which adapts to the baby's body, relieving pressure.
Contains a high number of high-density gel particles that delay heat absorption, creating an environment of optimal rest for the baby.

CH-2015 (88x68x12 cm) Big Converbaby Cradle 90 x 70
CH-1293 (116x57x12 cm) Cot 120 x 60
CH-1294 (137x67x12 cm) Cot 140 x 70

1. **Visco Innogel®**

2. **Inner core drilling HR Aquapur®**

1. **Visco Innogel®**
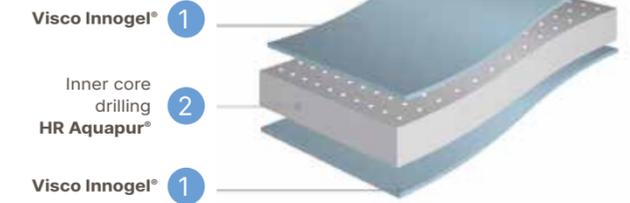

Spring Mattress

This mattress stands out for being highly breathable. Its Bonell spring core allows air circulation, preventing the accumulation of CO2 pockets. It is perfect for babies who tend to sweat at bedtime or live in areas of high humidity. It also has a safety frame that keeps the baby in the centre of the mattress.

CH-660 (116x57x14 cm) Cot 120 x 60

1. **HR Aquapur®**

2. **Perimeter frame period**

3. **Bonell inner core spring**
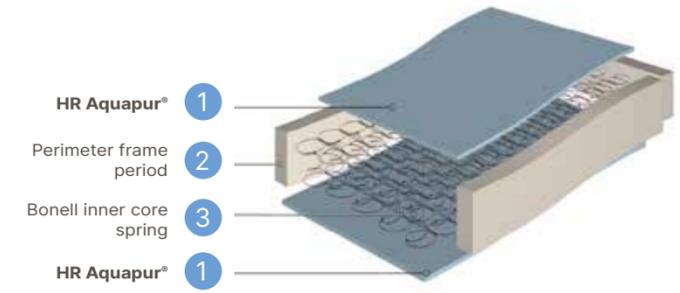

1. **HR Aquapur®**

Foam Mattress

The foam mattress has an HR Aquapur® core, which has thousands of micro-pores that favour the circulation of air inside the mattress, guaranteeing extraordinary climatic regulation and unique comfort while preventing the accumulation of moisture.
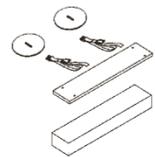

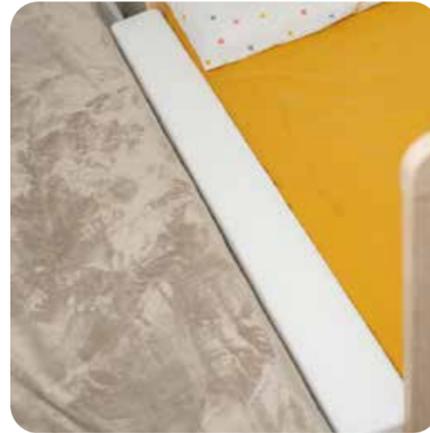

CH-620 (116x57x9 cm) Cot 120 x 60

Co-sleeping

Twin DUO KIT

Sleep next to your baby

The co-sleeping kit allows you to sleep peacefully close to your baby whenever you want. It includes fastening straps, adjustment stops, upholstered mattress and base for joining the bed to the cot.

CO-SLEEPING KIT WITH BRIDGE CP-2007

Measurements	Composition	Colour	Features	Includes
Height 10 cm Length 110 cm Depth 10 cm	Melamine Board MDF	White	Compatible with framed beds With its many cot positions it can have 3 or 5 bed base positions	Fastening straps Adjustment stops Upholstered mattress Jointing base

CO-SLEEPING KIT WITHOUT BRIDGE CP-2008

Measurements	Composition	Colour	Features	Includes
Height 15 cm Length 15 cm Depth 0.3 cm	MDF	White	With its many cot positions it can have 3 or 5 bed base positions	Fastening straps Adjustment stops

The twin accessory is perfect for joining two cots, whether they are the same or different models, with an easy, simple, safe system. This accessory is ideal to keep our babies sleeping together after birth. The kit also includes a beautiful photo frame, shaped like the little bag the stork carries babies in, which you can personalise with a family photo.

TWIN KIT CP-1774

| Measurements	Composition	Colour	Features	Includes
Height 13.5 cm Length 116 cm Width 13 cm	Melamine Board	White	Includes ceiling, base and mattress. Not compatible with Co-Sleeping Kit or reclining bed base	Two head connection pieces, one of them with built-in picture frame Courtesy Connecting base for both bed bases

Discover all the benefits of Relax System

The inclination improves breathing, reduces the pressure of the head on the mattress, reduces the possibility of positional plagiocephaly, promotes digestion and reduces regurgitation. This system provides the baby with the safest position: sleeping on the back, avoids dangerous situations such as the mask effect and reduces CO2 re-inhalation.

It is complemented with an articulated mattress for two slat base inclinations: 7º and 10º. (Page. **80.**)

PATENTED PATENTED PATENTED

We research the **World Recommendations** on baby sleep, apply them to our products and guarantee rest and safety.

Check in the **Other** cot **accessories** section that your model is compatible with this accessory.
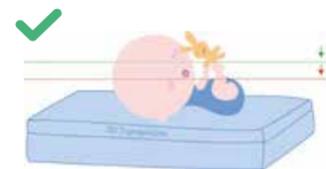

✔
FACE UP Position
Position that reduces the sudden infant death syndrome.
Position that reduces CO2 re-breathing.

✔
RELAX SYSTEM position
For less CO2 re-breathing we should place our baby at an inclined angle.

✖
FACE DOWN position
The WHO recommends the prone position for the safe and pleasant sleep of the baby.

✖
SIDE-STAND Position
Sleeping on the back reduces the mask effect, whereby a soft or cushioned material can cover the baby's face and impede breathing.

Changing Table

Enjoy your baby's daily washing routine, turning it into an easy and practical moment with the new CAMB-2006 changing table.

This stylish design makes it easy to organise and access baby care essentials. a designer piece that will add the perfect touch to a child's room!

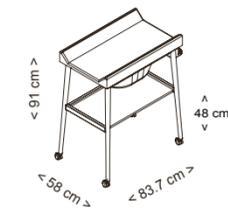

Made from beech wood, this lightweight bath tub features rounded feet for a modern and safe feel. The new large tub redefines the bathing experience, offering comfort and longer usage time. Includes tub, soap holder and drain for easy removal of water. To facilitate its mobility, it has 4 wheels, two of them with brakes, although they can be easily removed to make it fixed.

You can remove all the accessories and transform it into a modern and practical side cabinet.

Bathtub accessories

Micuna bathtub furniture is very practical as you can use it as a bathtub during your baby's first months and later convert it into a changing table for his or her room.

Available in white, with a choice of two upholsteries. Includes a large tub with soap holder and drain. Castors included for easy mobility, with high quality rubber to protect floors.

Thanks to its optional fixed-feet add-on, it can be transformed into a practical dresser.

Micussori

The Micuna Montessori family

Micussori Mirror

Children's mirror with wooden frame in white and learning bar in natural wax. The bar has three heights to adapt to the baby's height, can be removed and turns into a full-length mirror. The surface is made of safety methacrylate with a mirror effect. Includes wall fastening system.
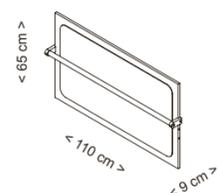

👍 With the help of the bar and the mirror they learn to walk more decisively

COLOUR

MICUSSORI MIRROR MONT-1922	External measurements	Material	Colour	Features	Including
	Height 65 cm	Melamine board	White - Natural Wax	Montessori pedagogy safety mirror with 2 mounting positions (horizontal and vertical) and adjustable bar in 3 heights. Bar heights: 24.5 cm / 31.5 cm / 38.5 cm	Includes wall fastening
	Width 110 cm				
	Depth 9 cm	Beech			

< 65 cm > < 110 cm > < 9 cm >

Micussori

Children's hanger bar

Thanks to this practical hanger, your child will be able to sort and organise his or her clothes by colour, size or season.
The lower shelf will allow you to keep your folded clothes sorted by type of garment or colour.

👍 Organised space within reach

COLOUR

CHILDREN'S HANGER BAR MONT-1931	External measurements	Material	Colour	Features

Tipi lndie

Micussori

The Tipi Indie Bed not only provides a safe sleeping space, but also sparks the imagination of the little explorers at home.

Made with the highest quality wood and impeccable finishes, this bed is the perfect combination of modern style and functionality.

👍 Where comfort meets adventure in every dream.

Safety barrier

The Micussori line's safety barrier fits most Micuna 120x60 cm cots. With rounded edges to avoid possible scratches, it is the perfect complement for when your baby learns to get in and out of the cot by himself.

It is also compatible with the Big Martha, Big Nature and Big Trevi 140x70* cot, with the Bed Swing, Big Martha and Big Nature in the cot version* and the Tipi Indie.

👍 Encourages young children to get in and out of bed on their own

Micussori

Trotta

Ladder

In the first position, Trotta is a three-step ladder, perfect for the smallest adventurers. The bottom step can be folded inwards, for when the child does not need it and to save space in the home.

Evolving

The second position is designed to support the child as they grow. Thanks to Trotta's innovative guide system, the functionality can be changed with very simple and intuitive movements, without needing any tools. By simply sliding it, the upper step becomes a hidden step, reducing the height of the lift.
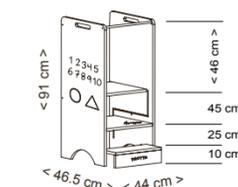

Seat

Trotta is also a seat, when the upper step is placed in its backrest position.

Learning

Its side panels contain a fun game, allowing the child to discover letters, numbers and basic geometric shapes, tracing them with the tracing ball. This system will allow your child to have their first experience of writing and drawing at their own pace of learning.

Slow System

Pregnancy and the first months of your baby's life is a unique period, a period in which it is very important to take care of yourself and rest. Now you can order any of our nursing rocking chairs with the SLOW SYSTEM, a system that allows you to rest in three comfortable positions. Elevating your feet promotes circulation and helps eliminate swelling during pregnancy.
